- Vestas Ventures

## **Investment Focus**

The green energy sector is broad and encompasses a wide range of subsectors. As a result, venture capital and private equity firms that invest in green energy often have a specific investment focus.

Some of the most common investment focuses for green energy firms include:

- Renewable energy (e.g., solar, wind, hydro, geothermal)
- Energy efficiency
- Energy storage
- Smart grid
- Electrification
- Sustainable transportation
- Green buildings
- Water technologies

When evaluating potential investment opportunities, green energy firms typically look for companies that have a strong management team, a compelling technology or product, and a clear path to profitability.

## Contact Information

If you are a green energy company seeking funding, you can contact the firms listed in this directory using the contact information provided.

Please note that the information in this directory is for informational purposes only and does not constitute investment advice.
