The relationship between President Trump and Russia has been under intense scrutiny since the 2016 US presidential election. Allegations of Russian interference in the election have led to multiple investigations, including one by Special Counsel Robert Mueller. One of the key questions in these investigations is whether Trump or his campaign colluded with Russia to influence the outcome of the election.

The Evidence

There is no consensus on whether or not Trump colluded with Russia. Some evidence suggests that there may have been contacts between Trump campaign officials and Russian individuals, but it is unclear whether these contacts amounted to collusion. For example, the Mueller Report

found that there were "numerous links" between Trump campaign officials and Russian individuals, but did not establish that these links amounted to a criminal conspiracy.

Other evidence suggests that Trump may have obstructed justice by interfering with the Mueller investigation. For example, Trump fired FBI Director James Comey, who was leading the investigation, and he also pressured Attorney General Jeff Sessions to resign after Sessions recused himself from the investigation.

Trump's Compliance

Trump has repeatedly denied any wrongdoing in his dealings with Russia. He has also refused to cooperate with the Mueller investigation, invoking executive privilege to block the release of documents and witnesses. Trump's refusal to cooperate has led to speculation that he may be trying to hide something.

In addition to the Mueller investigation, Trump has also been the subject of investigations by Congress and the New York State Attorney General's office. These investigations have also uncovered evidence of contacts between Trump campaign officials and Russian individuals, but they have not yet reached any conclusions about whether or not Trump colluded with Russia.

The question of whether or not Trump colluded with Russia is still unanswered. The Mueller Report did not establish that there was a criminal conspiracy between the Trump campaign and Russia, but it did not exonerate Trump on the question of obstruction of justice. Trump has repeatedly denied any wrongdoing, but he has also refused to cooperate with the investigations into his dealings with Russia.

The question of whether or not Trump colluded with Russia is likely to continue to be debated for years to come. The evidence is still being gathered, and it is unclear whether or not there will ever be a definitive answer.
